

QObject

QGraphicsRectItem

Button

```
graph BT; Button --> QObject; Button --> QGraphicsRectItem;
```

The diagram illustrates a class hierarchy. At the bottom is a box labeled 'Button'. Two arrows originate from the top of the 'Button' box and point upwards to the bottom of two boxes above it. The box on the left is labeled 'QObject' and the box on the right is labeled 'QGraphicsRectItem'. This indicates that 'Button' inherits from both 'QObject' and 'QGraphicsRectItem'.
